VSU School of Agriculture Coop Ext - Small Fruits and Vegetables Program
Driving Directions
To Reach VSU’s Randolph Farm:
4415 River Road
Petersburg, VA

(Take any highway to I-95)
1. Interstate 95 to Exit 54 (Temple Ave.) in Colonial Heights
2. At end of exit ramp, turn left.
3. Turn left at 2nd traffic signal onto Route 301 (Boulevard).
4. Drive to the 4th traffic signal staying in the right hand lane until reaching traffic signal with WaWa Gas on right. Turn right onto Dupuy Road.
5. Drive for 1 and ¼ mile past VSU to traffic signal.
6. Curve to the right at the yield sign, passing over the railroad bridge, and continue straight for another ¼ mile on River Rd.
7. Slow down, at the first gated entrance to Randolph Farm, turn left. Parking will be all the way to the end of the paved road.

Gateway Dining Hall From Randolph Farm:
2804 Martin Luther King Drive
Petersburg, VA 23806

1. Drive out farm road, turn RIGHT; continue for ¾ mile, through one stoplight and across overpass
2. At traffic light, turn LEFT onto Granger St. (changes name to Dupuy Ave)
3. Continue to main entrance to Virginia State University campus, past football field.
4. Turn RIGHT into main entrance.
5. Parking will be available at the FIRST parking lot to the left as you enter the campus. Dining Hall is located across the pedestrian bridge.

5 Virginia chefs will be battling it out before a panel of judges to come up with original culinary creations made from the produce and protein (meat/seafood) grown at Randolph Farm.
Sponsored by:

*Competition will be held at Gateway Dining Hall*

**About our presenters...**

**Clif Slade** - is a Virginia native who has begun farming as a child alongside his father. He is a proud graduate of Virginia State University where he acquired both a Bachelors and Masters degree in Agriculture Extension. With 28 years of service, he retired from Cooperative Extension at Virginia Tech. where he worked as a County Extension Agent, District Director and Commercial Vegetable Specialist for southeast Virginia. He is also a retired Lt. Colonel from the US Army National Guard. In 2010, Clif was appointed by the USDA to serve on the Virginia Farm Service Agency Committee. He works part-time as a Small Farm Outreach Technician and stays busy on the family farm raising chickens and produce on bare ground and in high tunnel greenhouses. Clif and his wife own and operate Sycamore Springs Farm Market in Surry, VA. With a deep love and respect for farming, he takes great joy in teaching others to be productive and profitable stewards of the land. Clif still abides by his daddy’s famous saying; “It’s enough ways for everybody to have one.”

**Chris Mullins** - has been an Extension Specialist at Virginia State University since 1999. His main area of responsibility is research and education in commercial vegetable production, particularly high tunnels for season extension and greenhouses. He has also been directly involved with construction and retrofitting of approximately 80,000 square feet of greenhouse space in several different regions of Virginia.

**Dr. Reza Rafie** - is a Horticulture Extension Specialist with Virginia State University. His current research and extension interest is working with high-value specialty vegetables and small fruits. Dr. Rafie takes a marketing approach in identifying crops with proven market trend potential that will ultimately help the growers’ bottom line. He has many years of international experience and in the past has worked with privately-owned fresh fruit and vegetable companies.

**Pam Dawling** - writes for *Growing for Market* magazine. She has been growing vegetables at Twin Oaks Community in Central Virginia for over 20 years, where the gardens feed 100 people on 3.5 acres. Her book *Sustainable Market Farming: Intensive Vegetable Production on a Few Acres* was published by New Society Publishers on February 1, 2013.

**Steven Pao** - received a PhD in Food Science and Nutrition from The Ohio State University in 1994 and is a Professor of Food Safety and Microbiology at Virginia State University. His current research topics include food safety risks in farm environments and technologies for sanitization. Prior to his University career he worked as a Scientist for the Florida Department of Citrus and Florida Department of Agriculture & Consumer Services. He has consulted in Azerbaijan, China, El Salvador, Georgia, Kazakhstan, Kyrgyzstan, Lebanon, Malawi, Mexico, Nicaragua, and Nigeria with emphasis on food safety and quality management. He has been the recipient of research grants from federal, state, and private agencies and his work has appeared in publications including the Journal of Food Protection, Applied and Environmental Microbiology, and Foodborne Pathogens and Disease. He has served as an editorial board member of international journals such as the Journal of Food Processing and Preservation. His resume is available at http://www.linkedin.com/in/stevenpao.

**Debra Deis** - is a vegetable trials specialist and product manager at Seedway, a seed company selling to professional growers throughout the eastern half of the US. While based in Hershey PA, Debra travels to visit trials set up in conjunction with the salesmen. She has a long standing interest in specialty vegetables, protected cropping and organic growing, going back to 1984 when she worked at Johnny’s Selected Seeds. Although she personally prefers warm weather, working for Sakata Seed in Salinas California broadened her background to includes the crops that grow in cold weather such as lettuce, spinach and broccoli and kale.

Personally, Debra has a small flock of sheep and is very happy to have purchased her own high tunnel this spring.
