Afternoon Pesticide License Classes

If you hold a Private Pesticide Applicators license and need to be re-certified we will offer that course the afternoon of the fruit school. You must be present for the morning portion of the Fruit School to qualify for the afternoon re-certification class. Participants will break for lunch on their own, feel free to brownbag or run out to one of many local lunch options.

1:00p.m.-3:00p.m.	Private Pesticide Applicators re-certification class will be offered for those fruit school attendees that need this credit.
1:00p.m.-3:00p.m.	If you do NOT currently have a private pesticide applicators license but wish to obtain one we will also offer a study and testing session for new license.

*Please let us know if you plan to attend one of these afternoon session
